Programming Languages :
Python (confirmed > 3 ans) -
C (beginner ~ 1 an) -
Swift (beginner < 1 an) -
Shell (beginner < 1 an) -
Kotlin (beginner) -

Fluent English C1
Spanish B1

CAREER OBJECTIVE

Graduate student in Applied Mathematics and Computer Science (M.Eng. expected in 2023),I have experience in mathematical modelling, AI, and software development. I am keen to work with innovative projects advancing new technologies. I would like to work in Finance in the future (ML applied to finance, quantitative research, ...)

EDUCATION

GRENOBLE INP - ENSIMAG

ENGINEERING SCHOOL OF APPLIED MATHEMATICS AND COMPUTER SCIENCE - GRENOBLE, FRANCE
MASTER OF ENGINEERING, SEPTEMBER 2020 –EXPECTED JUNE 2023

- Core curriculum in **mathematics** (e.g. information theory, applied probabilities and calculus) and **computer science** (e.g. software development in **Python** and **C**, **algorithmic**, **data structures** and operational research)

SUMMER SCHOOL

CENTER FOR RESEARCH IN INFORMATION SCIENCES, TECHNOLOGIES AND ARCHITECTURE - LISBON, PORTUGAL
JUNE 2019

- One week **IOT project in group** using Lora technology
- Data collection, analysis and prediction with Python (**scikit-learn**)

BORDEAUX INP

PREPA DES INP - BORDEAUX, FRANCE
SEPTEMBER 2018– JUNE 2020

- Two-year intensive undergraduate program axed on mathematics, physics and computer science to prepare top French engineering schools

HIGH SCHOOL DIPLOMA

BACCALAURÉAT WITH DISTINCTION AND HONORS 19/20 | ANGOULÊME, FRANCE
JUNE 2018

WORK EXPERIENCES

GIPSA-LAB | MATHEMATICAL LABORATORY, GRENOBLE, FRANCE

INTERN RESEARCHER
JUNE 2021 – JULY 2021

- Under supervision of Romain Couillet.
- Optimization of Deep Learning Algorithm in order to reduce their cost.
- Implementation in Python.
- Transfer Learning

WELLPUTT | START-UP, ANGLET, FRANCE

MOBILE DEVELOPER
MAY 2020 – FEB 2021

- Led Android Development in Kotlin on Android Studio, in close coordination with the client.
- Versioning using Git
- IOs development in Swift in a three-person team led by a senior software engineer.
- Sqlite Database management.
- Golf trajectories computation in Python using Google Colab.

VITIROVER | START-UP, SAINT-EMILION, FRANCE

Vitirover is a small French company which offers grass management services using small mower-robots, mainly to wine producer near Bordeaux and to other companies (SNCF, EDF, ..) in France and in Europe.

ENGINEERING ASSISTANT INTERNSHIP
APRIL 2020 – JULY 2020

- Software development for micro-robotics to detect mechanical malfunction through audio signals.
- Real-time frequency analysis of audio signals and of accelerometer, using FFT computation in C and Python.
- Implementation on Raspberry-Pi to test the software solution without interfering with the robots hardware

INTERESTS AND ACTIVITIES

- **Coding competition/Problem solving:** CodinGame (lafak), Euler Project (lafak) Coding Battle le Shaker.
- **Challenge Data & IA Neovision**: Led a team of three in an AI competition in which we finish 3rd with a score of more than 90% (vgg-net implementation in Keras with data augmentation)
- Kickboxing K1 light, semi-finalist at France championship (2018).
- Led a funk band music of 8 musicians (including me) over 2 years. Won the public title of the "Tremplin des lycéens charentais" in 2018.
- Literature : Dostoïesvski, Frankl, Jancovici,..
